YYGS gives high school student leaders opportunities to recognize and understand contemporary global issues, strategize responses, and innovate solutions while learning from Yale faculty members, current Yale students, and renowned practitioners. With a combination of lectures, elective seminars, and small-group work, the Yale Young Global Scholars Program emphasizes an open, exploratory, and collaborative approach to learning.

Admission to the program is very selective. Current high school sophomores and juniors and international equivalents are eligible to apply.

**APPLICATIONS DUE:**
